### **PRESS RELEASE**

#### **National Reserve Bank of Tonga: Credit Ceilings**

The Governor of the National Reserve Bank of Tonga, Mrs Siosi Mafi today held her bi-annual meeting with the General Managers of banks to discuss the latest monetary and financial indicators, and their implications for the Reserve Bank's monetary and bank supervision policies. The main policy change was the suspension of credit ceilings on lending to the private sector. The suspension of credit ceiling is to allow banks to consider lending for the recovery of those who were affected by the civil unrest in November 2006. The Reserve Bank is mindful of its objective in fostering balanced economic development and the important role of the banks in the rebuilding of Nuku'alofa. She noted that the credit ceilings have been lifted in anticipation of a pick-up in the demand for credit to support reconstruction. Credit outstanding at the end of December was below the aggregate ceiling agreed with the banks in June 2006 and while special consideration has always been given for lending to foreign exchange-earning sectors and for loans that fostered balanced economic growth, the events of 16 November 2006 affected the lending operations of the banks.

Despite the suspension of the credit ceilings, the Reserve Bank expects all banks to continue to lend prudently, consistent with their own internal credit guidelines. The Reserve Bank will continue to closely monitor the growth in lending to ensure the promotion of macroeconomic stability and a sound financial system.

### **PRESS RELEASE**

#### **National Reserve Bank of Tonga: Monetary Policy**

At its meeting today, the Board of Directors of the National Reserve Bank of Tonga agreed to reduce the Statutory Required Reserves Ratio from 12.5 percent to 10 percent effective from 2nd April 2007. The decision was made against a background of tight liquidity in the banking system. This reduction of the Required Reserves Ratio will inject an additional T\$6.2 million into the banking system to assist with the anticipated pick-up in the demand for credit to support reconstruction after the events of 16 November last year.

Looking ahead, the Reserve Bank's preliminary projection suggests that the level of official foreign reserves will fall to around 3 months of import cover by June this year. While this is at the lower range of the Bank's comfort range, the Bank believes that the economy can withstand this projected decline while macroeconomic stability is maintained. There are a lot of uncertainties at the moment with regards to the impact of 16/11, the progress made on the recovery process and the government's budget for 2007/08. These foreign reserves projections will be revised as and when new information becomes available.

The Bank believes that the injection of T\$6.2 million into the banking system will enhance the efficiency of the payments system and the stability of the financial system without significantly accelerating the expected decline in the level of foreign reserves.

The Governor concluded that the Bank will continue to closely monitor economic and financial conditions to ensure the promotion of a sound financial system and macroeconomic stability.
