Notes to Statistical Tables

Financial years end in June.

Tables A1 - C2, Pages S1 - S18

Monetary data are adjusted to incorporate revisions received from the domestic banking system.

Table A1 - Pages S1 - S2

1. Comprises consolidated balance sheet of the NRBT and the commercial banks.
2. This includes the holdings of the Reserve Bank and the commercial banks.
3. Non-monetary financial institutions (NMFI) are those which do not combine the taking of deposits with the extension of credit.

Table A2 - Pages S3 - S4

1. Comprises the consolidated balance sheet of the NRBT, commercial banks and the NMFI.
2. These data may differ slightly from the comparable data shown on Statistical Table S2 because of savings deposit holdings of the NMFI in the two Niuas.
3. Comprises bills and promissory notes issued by financial sector and held outside that sector.
4. Represents borrowing by Government from foreign sources for onlending to NMFI.

Table A3 - Page S5

1. Non-Financial Public Enterprises.
2. Non-Monetary Financial Institutions.

Table A4 - Page S6

1. Includes pre-decimal issues and a minor value of 50 seniti notes.
2. Includes pre-decimal issues and a minor value of \$1 and \$2 coins.

Table B1 - Pages S7 - S8

1. In March 1993, NRBT introduced a Required Reserve deposit for commercial banks.
2. In April 1993, NRBT replaced Term Deposits of commercial banks with NRBT Notes.

Table B2 - Pages S9 - S10

1. These data sometimes differ slightly from the comparable data shown on Statistical Table S15.

Table B3 - Pages S11 - S12

1. These data sometimes differ slightly from the comparable data shown on Statistical Table S16.
2. Direct borrowing by NMFI from foreign sources. Some exchange risk is assumed by Government.
3. Represents borrowing by Government from foreign sources for onlending to NMFI. Exchange risk is carried by Government.

Table B5 - Page S14

1. Data exclude deposits held by the Government.

Table B6 - Page S15

1. Includes lending to the manufacturing, transport and communications, commerce and trade, construction, and services sectors.

2. Includes private individuals and nonprofit bodies.

Table B7 - Page S16

1. Includes lending to the manufacturing, transport, and communications, commerce and trade, construction, and services sectors.
2. Includes private individuals and nonprofit bodies.

Table C1 - Page S17

1. The series depicted in this table changed in the March 2013 issue of the Quarterly Bulletin, to take fuller advantage of improvements to bank reporting requirements.
2. This reflects the interest rates paid for 3 to 60 month term deposits, weighted according to the amounts in these categories.
3. Banks began reporting their interest rates to the NRBT using new reporting forms from this date.

Table C2 - Page S18

1. The series depicted in this table changed in the March 2013 issue of the Quarterly Bulletin, to take fuller advantage of improvements to bank reporting requirements.
2. Banks began reporting their interest rates to the NRBT using new reporting forms from this date.

Table C3 - Page S19

1. Short Term: Three months Treasury Bills except for Japan, Private Bill Rate.
2. Government Bonds: Ten year Government Bonds

Table D1 - Page S20

1. End-period, minimum retail price per litre of petrol sold by major distributors in Nuku'alofa, including sales tax.
2. End-period, most common (level 2) rate group including any surcharges.

Table D2 - Page S21

1. Before the 4th quarter of 2009, the data cover agricultural products sold in the Talamahu Market. After that time the data also capture the values of agricultural products sold in the 'Utukalongalu (Vava'u) and Roadside Markets. The quality of these data, particularly in earlier periods, is suspect and should be used with care. In addition, as it is likely that this market is covering a declining share of the total trade in these products, longer-term trends should be interpreted with care.
2. Comprising kape, cassava, taro, yams, sweet potatoes and mixed foods.
3. Data reflect the temporary closedown of the central business district including the Talamahu Market after the November 2006 event.
4. Started including data from 'Utukalongalu Market (Vava'u) and Roadside Market from this date.
5. Stopped including data from 'Utukalongalu Market (Vava'u) from this date.

Table D3 - Page S22

1. Comprising kape, cassava, taro, yams, sweet potatoes and mixed foods.
2. Data reflect the temporary closedown of the central business district including the Talamahu Market after the November 2006 event.

S45

3. Started including data from 'Utukalongalu Market (Vava'u) from this date.
4. Stopped including data from 'Utukalongalu Market (Vava'u) from this date.

Table D4 - Page S23

1. Comprising kape, cassava, taro, yams, sweet potatoes and mixed foods.

Table D5 - Page S24

1. CPI as published by the Statistics Department was rebased in October 2010. The base period of October 2010 = 100.

Table E1 - Page S25

1. Data from 2004/05 are on a Government Finance Statistics (GFS) basis. Previous data are on cash basis of accounting.

Table E3 - Page S26

1. Comprises Seastar Fishing, Janfull International Hotel, Ports Authority, Tongatapu Market Ltd, Royco, Taumoepeau Building and Sanft Building.

Table F1 - Page S27

This table had been revised to reflect update of trade data, particularly the months of import cover.

1. Prior to the establishment of the NRBT, these assets were held by the Commissioners of Currency, the Commissioners of Coinage, Treasury and the BoT. This includes only the holdings of the Reserve Bank.
2. Imports, cif. in the year to date concerned. Where latest data is not yet available this is estimated by NRBT.

Table F2 - Page S28

1. At the end of 2013 the NRBT improved its methodology for measuring the foreign exchange transactions in Tonga, merging the OET data with information obtained directly from foreign exchange dealers. All data back to, and including, the first quarter of 2012 were revised, resulting in a large series break at that quarter.
2. Corresponds to changes in net official foreign reserves.

Table F3 - Page S29

1. Comprising fish and other marine products.
2. Comprising kape, cassava, taro, yams, sweet potatoes and 'mixed' foods.
3. Includes kava exports.

Table F4 - Page S30

1. Comprising fish and other marine products.
2. Comprising kape, cassava, taro, yams, sweet potatoes and mixed foods. Given the non-homogenous nature of the group, movements in unit values should be assessed with caution.

Table F5 - Page S31

1. Including Hawaii and American Samoa.
2. Including China, Hong Kong and other Asian countries.

Table F6 - Page S32

1. Data should be used with caution on account of difficulty separating travel receipts from private remittances.
2. "Total" comprises all visitors arriving by air and all yacht arrivals. The by-citizenship information assumes that all arrivals recorded as non-Tongans are visitors. "From others" is a balancing item.
3. At the end of 2013 the NRBT improved its methodology for measuring the foreign exchange transactions (FET) in Tonga, merging the OET data with information obtained directly from foreign exchange dealers. All data back to, and including, the first quarter of 2012 were revised, resulting in a large series break at that quarter.

Table F8 - Page S34

1. Imports under aid or grants.

Table F10 - Page S36

Given the non-homogenous nature of some of these categories, movements in unit values should be assessed with extreme caution.

1. In 2001, Tonga moved away from using the Standard International Trade Classification of imported goods to using the Harmonised System. From that time the volume data includes bicycle, engine parts and spare parts for vehicles.

Table F11 - Page S37

1. Including Hawaii and American Samoa.

Table F13 & F14 - Page S39 & S40

1. The calculation of the bilateral exchange rates is based on the average of the mid-points published by the commercial banks for the concerned period.
2. The "euro" became the official currency for 11 European countries: Germany; France; Belgium; Spain; Ireland; Italy; Luxemburg; the Netherlands; Austria; Portugal and Finland.

Table F15 - Page S41

Note: The real bilateral exchange rate indices measure the combined effects of inflation differences and exchange rate changes between Tonga and the reported country, to gauge changes in the relative competitiveness of producers in both countries. Increases in the indices correspond to deterioration in the relative competitiveness of Tonga's producers. The real trade-weighted index averages the real bilateral rates for Tonga's major trading partners, as measured by the sum of imports and exports. The nominal trade weighted index simply averages the movement of the pa'anga against the currencies of Tonga's major trading partners. The methodology for calculating these rates, including the full history of data, was updated in September 2013.

Table G1 - Page S42

1. Quarterly series are seasonally adjusted.
2. Year-ended June.
3. Calendar year, i.e. 2003/04 is for 2004.
